10 November 1959

MEMORANDUM FOR: Assistant to the Director

SUBJECT: Draft of Speech for Otto E. Guthe

REFERENCE: Memorandum from Assistant to the  
Director, to Chief, CI, 9 November 1959

The attached draft has been reviewed and the following comments are offered:

1. With regard to the comments on Communist penetration on pages 6 to 9, the information is overt and declassified and presents no problem as it is written.

2. The statement concerning the exchange program, according to CI Staff's International Communism Division, is correct. It was inserted by CI/ICD when the first draft of the speech was under consideration. CI/ICD does not believe it is too strong a statement for the purposes of this talk.

3. Page 12, paragraph 2: The possibility that this statement might be interpreted as a statement of U.S. policy can be avoided by deleting the last line from this paragraph and substituting, "there are, more often than not, no easy and ready solutions".

4. Page 8, last sentence, which runs over onto the top of page 9: While this statement is accurate, it may be unwise to use it in the event that the text of the speech is publicized in Afro-Asian countries.

5. Page 5, last paragraph, second sentence: We suggest deletion of the words "These two nations probably", and substituting: "There are many compelling reasons for these two nations to..."
